Maysa Borges Gama

Curriculum Vitae

Oct, 2026

maysabgama@gmail.com

Education

University

M.Sc. Computer Science

Federal University of Pernambuco, 2021-2024

Thesis: *Human-computer interaction guidelines for complex augmentative and alternative communication systems with Large Language Model integration.*

B.A. Design

Federal University of Pernambuco, 2013-2017

Thesis: *Descriptive report on the development of the Waho project based on the Challenge-Based Learning methodology.*

Other

2025 – 2027 International Student

International Study Institute Tokyo (ISI 外語カレッジ)

Academic Experience

Mar/2024 – Oct/2025 **HCI Researcher**

Virtual Reality and Multimedia Research Group, Federal University of Pernambuco

Research on human-Computer Interaction focused on Robotics, Artificial Intelligence, Accessible Computing and STEM Education.

Jan/2023 – Jul/2023 **Visiting Researcher**

Inclusive Design Research Centre, Ontario College of Art and Design University

Conducted research on ethical, collaborative, and inclusive AI tools for individuals with complex disabilities.

Mar/2015 – Jan/2016 **iOS Development Student**

Apple Developer Academy, Federal University of Pernambuco

iOS development, based on mobile application design and coding guidelines for UI | UX best practices.

Jun/2013 – May/2014 **Undergraduate Researcher**

Game Design Research Lab, Federal University of Pernambuco

Research on emerging applications for smartphones and tablets.

Teaching Experience

Aug/2021 – Oct/2025 **Lecturer**

Virtual Reality and Multimedia Research Group,
Federal University of Pernambuco

Responsible for lectures on accessible computing and private and security for the Human-Computer Interaction class in the Computer Science undegraduate course.

Aug/2021 – Dec/2022 **Mentor**

Apple Developer Academy (Foundations Course),
Federal University of Pernambuco

Remodeled course curriculum and mentored 40+ computer science undergraduate students on UX research principles for real-life problem-solving, and best practices on product design for the iOS ecosystem.

Feb/2015 – Dec/2015 **Teaching Assistant**

Federal University of Pernambuco

Student support during classes; review sessions on after-class hours; assignment management and grading; laboratory supervision.

Employment

Sep/2026 – Present

UX Researcher and Consultant

Self-employed

Research on insurance and business for banks; data collection and management.

May/2024 – Jul/2025

UX Researcher

Jusbrasil

Mixed-methods research with emphasis on quantitative growth including, behavioural analysis and user segmentation.

Mar/2022 – Jan/2023

Senior UX Researcher

YouX Group

High-impact research for the company's leading client, the Brazilian Forest Service, associated to the Federal Government. The project promoted controlling, monitoring, and combating deforestation of native vegetation in Brazil.

Dec/2018 – Jun/2019

Designer

Manifesto Games

Development of wireframes, user flows and high-fidelity prototypes; UI | UX for games, landing pages and management systems.

Apr/2017 – Jul/2017 **Design Internship**

SENAI Innovation Institute for Information and Communication Technologies

Development of wireframes, user flows and high-fidelity prototypes.

Publications

Gama, Maysa. "Artificially intelligent and implicitly ableist: Analyzing language model bias towards persons with disabilities." *Accessible Canada-Accessible World / Un Canada accessible-Un monde accessible* (2024).

Gama, Maysa Borges, et al. "Heritage Education autochthonous' experience." *Annual Conference of International Committee of ICOM* (2021).

Honor and Awards

2022 Emerging Leaders in America
NSERC

2019 Best Prototype
HackeADA

2015 Finalist in the Recife Award for Social Entrepreneurship
Recife's Prefecture

2015 Most Innovative Project
Campus Party Recife

2013 Young Talents for Science
CAPES Foundation (Brazilian Federal Agency for Support and Evaluation of Graduate Education)
